MST Status Add/Edit

This option is used to enter, edit, delete, and display new MST status codes for patients through a series of List Manager Screens. The EL Edit Entry and DL Delete Status Entry actions will only be allowed for entries that you make in the current session. You cannot modify entries made in previous sessions. When you exit the option, HL7 messages are triggered to send the updated MST status, date MST status changed, and site determining MST status information to the Health Eligibility Center (HEC).
